# PeopleLink ePodiums

The PeopleLink ePodium changes the situation by using a made-in-place, network-based remote control panel system that presupposes it is perfect for lectures and meetings. Remote device control via network access can be achieved with universal AV and control ports. Because the touchscreen design is automated, AV broadcasting, live streaming, and the customized integration of devices are also supported by this. Ideally, the system is a Touch Interactive Monitor, Computer, Audio System, Document Visualizer, and Projector, where, in real-time, these units can provide sensations of bliss on the dynamic presentation without a sweat.

## Description

- With pixel pitches catering to diverse needs—from high-resolution cinema video walls to expansive sports venue boards and collaborative touch-based displays, our technology transforms spaces.

- Elevate your conference halls, meeting rooms, and indoor events with a PeopleLink Video Wall.

- Our commitment lies in pioneering technology that not only gains popularity but excels in design, resolution, sizes, and shapes tailored to your preferred location and installation area, ensuring an extraordinary visual experience for your visitors.

PeopleLink's Active LED Panel – a pinnacle of performance in commercial-grade, direct-view LED displays.

With pixel pitches catering to diverse needs—from high-resolution cinema video walls to expansive sports venue boards and collaborative touch-based displays, our technology transforms spaces.

## with PTZ Camera

**Key Features**

### Close-up Camera

- 1/2.5-inch, CMOS sensor, EP: 8.29 MP
- 4K@30/25fps, 1080P@30/25fps, 720P@30/25fps, etc
- 12x optical zoom
- 70.1° wide angle lens
- 4K UHD close-up camera

### Panoramic camera

- 1/2.5-inch, CMOS sensor, EP: 8.29 MP
- 4K UHD panoramic camera
- DFOV : 117°
- HFOV : 108°
- VFOV : 74°

### Other Features

- Bluetooth 5.0
- Built-in microphone - 8m pickup distance
- Full range frequency speaker
- Wireless screen casting (built-in WiFi module)
- Built-in 3A audio algorithm (AEC/AGC/ANS) USB3.0, USB 2.0, HDMI, RJ45

# Conference System

## with Cascade Mics

The Conference System (with Cascade Mics) is a versatile and advanced wireless smart conference solution designed to meet the needs of various environments, including large conference rooms classrooms, and irregular spaces. This system supports up to 8 wireless microphones, offering flexible placement and usage.
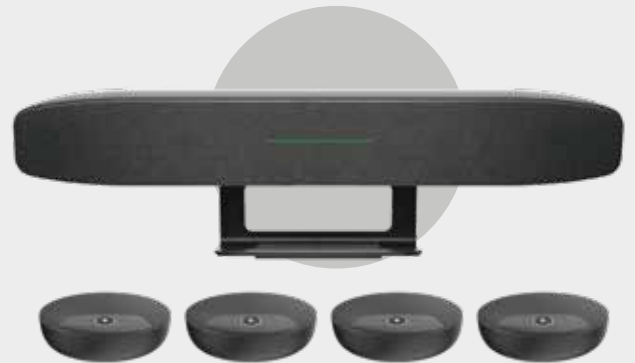

### Key Features

**Main Unit:**
- Supports upto 8 wireless microphones
- Best Pickup Distance: 3 meters
- Built-in Speaker Power: 2*10W
- DSP: AI Noise & Echo Reduction
- De-reverberation
- Ports: RS232, USB Type-B

**Extension Speaker Unit**
- Speaker Power: 2*10W per unit

**Wireless Microphones**
- Pickup Radius: 3 meters
- Battery Capacity: 2000 mAh

# 4K Telepresence Camera

The Telepresence 4K ultra HD camera offers 20x optical zoom, autofocus, flexible installation, infrared remote control, USB/HDMI connectivity, and versatile angle support for clear video in light or dark environments.

### Key Features

- Image Quality: Ultra HD 4K
- Optical Zoom: 20x
- Focus: Auto Focus, Auto Frame
- Control: Infrared remote, plug-and-play USB/HDMI
- Movement: Vertical -30° to 30°, Horizontal -150° to 150°
- Low-Light Performance: Large aperture for clear images

# 4K Integrated Endpoint

## with 1+8 Embedded MCU

The 4K Integrated Endpoint with 1+8 embedded MCU delivers top-tier video conferencing for business, education, emergency, and live events. Featuring the 3 models, this series ensures high-quality video and audio with integrated MCU functionality, adaptable to various needs from standard conferencing to advanced AI features.

### Key Features

- 4K UHD camera with 12x optical zoom
- Integrated 4K camera with panoramic & close-up capabilities
- Dual 4K video output with low-bandwidth support
- Built-in MCU for multipoint calling
- AI-assisted presenter tracking and gesture recognition
- 5G module for enhanced network performance
- Supports remote/local recording and broadcasting
- Multiple interfaces HDMI, USB, RS232, RJ45, PoE
- Supports SIP, H.323, and major conferencing platforms
- Video: 4KP60, 4KP30, 1080p, 720p.

---

# 4K Camera

## for Health Cart

Designed for broadcasting, training, meetings, and medical use, these cameras feature a 4K image sensor and ultra-long optical zoom for ligh-quality video. Ideal for live surgeries, remote consultations, and telemedicine, they have a digital array microphone for clear audio. Control is easy with built-in buttons, infrared remote, and web-based operation.

### Key Features

- 4K Resolution at 60 fps
- Connectivity: USB 3.0 Type-c, HDMI out, Line In,Line Out, RJ45
- Operating System Supported : Windows 7, 8 and above, Mac OS X, Linux 2.4.6+, Android
- Screen Modes: Single to nine screens, multiple layout options
- X2612 - 12X optical zoom, JX2620 - 20X optical zoom
- Control: Remote management,  scheduling for shutdown/boot/restart
- 2D/3D Digital Noise Reduction SNR≥ 55dB

# Dante Based Ceiling Microphone

## Key Features

- Suspension Mount Accessory: Designed for easy ceiling installation
- Network Connection: Uses Power over Ethernet (POE) for connectivity
- Cable Requirements: Includes 5-meter and 10-meter POE cables for flexible setup
- Compatible Network Switches: Requires two 8-port or one 16-port network switch
- Scalability & Flexibiliity: Dante ensures low latency, redundancy with highly synchronized reliable and robust audio network

# Dante Based Ceiling Speaker

## Key Features

- 30W power with 65Hz to 20kHz frequency response.
- 6-inch waterproof woofer and 1-inch adjustable silk dome tweeter.
- Peak sound output of 111dB with 8-ohm impedance.
- Fireproof engineering plastic and metal cabinet.
- Flexible suspension or flush mount installation with a 246mm round hole.

# PeopleLink Dante DSP

## Key Features

- Independent Channel(AFC): Supports independent audio channels with a boost of 10dB, allowing precise control over each channel's sound characteristics for optimized audio management.
- Noise Suppression(ANS): Enhances the signalto-noise ratio by 18dB, effectively reducing background noise and ensuring clearer, more intelligible audio.
- Gain-Shared Automatic Mixing (Gate Mixer): Automatically manages multiple audio sources to prevent feedback and distortion while maintaining optimal sound levels.
- Remote Bus AEC: Features a tail length time of 512ms for effective Acoustic Echo Cancellation, providing clearer audio in conference settings by eliminating echo.

# Connectivity Diagram

# PeopleLink UVC20B

## Key Features

- Advanced Audio Technology: Full-duplex echo cancellation, dynamic noise suppression, and automatic gain control ensure crystal-clear sound quality.
- 360-Degree Microphone Pickup: Omnidirectional microphone with a 4-meter sound pickup range, ideal for small meeting rooms and personal offices.
- Seamless Connectivity: USB plug-andplay & Bluetooth support with a 10-meter range for effortless conferencing on multiple devices.
- Compact & Portable Design: Lightweight with a built-in 1000mAh battery offering up to 4 hours of talk time, perfect for mobile conferencing and remote teaching.

# Airphonic Wireless Lapel Mics

## Key Features

- Microphone Type: Omnidirectional
- Headphone Jack: 3.5mm
- External Microphone Input: Yes
- Transmission Distance: Up to 30 meters
- Signal-to-Noise Ratio: - 38 dB
- Battery Capacity: 300 mAh, 3.7V
- Charging Port: USB Type-C
- Charging Time: Approximately 90 mins
- Battery Life: 5-8 hours of continuous use

# Wireless Presenter

Wireless Presenter

The Wireless Presenter allows content sharing from computers, phones, and tablets to displays or projectors, supporting USB, HDMI, Miracast, and AirPlay. It offers multi-screen displays, secure connections, and cross-platform compatibility.

## Key Features

- Wireless Screen Sharing: Supports computers, smartphones, tablets.
- Connection Methods: USB, HDMI, Miracast, AirPlay.
- Multi-Screen Display: Options for macOS, iOS, Android.
- Centralized Control: Remote management via cloud or custom servers.

# Table Top
# Conference Monitor

- Display Sizes: Available in 15.6-inch, 17.3-inch, 18.4-inch.
- Aspect Ratio: 16:9 for all models.
- Contrast Ratio: 1000:1
- Brightness: 400 cd/m² for all models.
- Video Interface: Supports HDMI and VGA inputs.
- Power Supply: Operates on 110-240V at 50/60Hz
- HD Display: FHD resolution, 16:9 aspect ratio.
- Automatic Lifting: Button-controlled lifting/lowering for a clean surface.

The ultra-thin HD LCD table monitor integrates into conference tables with an all-aluminum structure, HD display, HDMI/VGA inputs, and control panel. It lifts/lowers automatically, saves energy, and is lightweight.

# Retractable
# Monitor

**Retractable
Monitor**

The Retractable Ultra-thin Lift Monitor, ideal for paperless meetings, hides in conference tables to maintain a clean look. It features a 15.6-18.4" Full HD/4K touch screen, remote control, and HDMI/VGA inputs.

**Key Features**

- Design: Ultra-thin 15.6", 17.3", 18.4" touch screens
- Resolution: Full HD and 4K
- Touch Capability: 10-point
- Controls: Panel, remote, RS232/RS485
- Safety: Anti-pinch function

- Connectivity: VGA/HDMI, RS232
- Material: Aluminum alloy
- Power Consumption: Max 25W (LCD), 18W (motor)
- Lifespan: 50,000 hours LED backlight
- Non-touch, with mic and without mic

# Mobile Collaboration Unit

The Mobile Collaboration Unit offers a versatile UHD 4K display with 10-point touch control, 45° horizontal, 90° vertical rotation, and 20cm lift, ideal for adaptable entertainment and fitness applications

## Key Features

- Screen Size: 32 inches
- Resolution: UHD 4K
- Touch Control: 10-point
- Rotation: 45° horizontal, 90° vertical
- Projection: Wired/wireless, Type-C
- Wireless Communication: WiFi6, BT 5.1
- Battery: 9500mAh, 14.4V (136.8Wh)
- Audio: 2x5W speaker
- Mobility: Universal wheels

# Interactive Podium

The Interactive Podium features a microphone, projector, HDMI/Type-C cables, power adapter, stylus, and manual with warranty. It includes USB-A ports, HDMI input/output, Type-C output, LAN input, and multimedia control switches.

## Key Features

- USB-A1/A2: For files, USB devices
- HDMI Input/Output: For external devices
- Type-C Output: For USB-C devices
- Type-C Power Supply: External power
- LAN Network Input: 10/100M adaptive

# Telehealth Carts

## Model 1

The Telehealth Cart is a height-adjustable, mobile workstation for medical settings.It supports multiple monitors, includes optional accessories, and enhances ergonomic comfort while reducing strain in standing or sitting positions.

### Key Features

- Height Adjustable: Smoothly adjusts from 57" to 69.3" for sitting or standing positions.
- Monitor Mount: Adjustable to position the monitor at the desired height.
- 4 Casters: 2 lockable for stationery use or mobility.
- Cable Management: Designed to organize cables neatly.
- VESA Compatibility: Supports VESA standard 100x100mm.
- Two Screen Placement Options: Horizontal and vertical monitor setups.

## Model 2

This Telehealth Cart features a VESA mount for screens up to 10kg, 20° movement, ergonomic handles, anti-winding casters, and accessories like trays and baskets, with a 1.4m lift range.
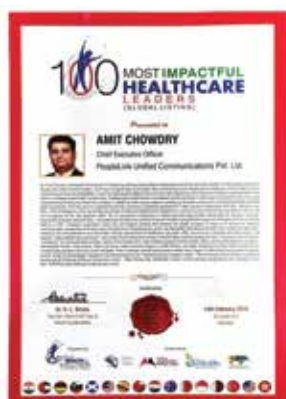

### Camera Features

- **4K Resolution at 60 fps:** Both cameras provide high-definition 4K video output, ensuring sharp and clear visuals for professional applications.

- **Optical Zoom Capabilities:** The JX2612 features 12x optical zoom, while the JX2620 offers a powerful 20x optical zoom, allowing for versatile framing and detailed shots.

- **Built-in Microphone Array:** Equipped with a 360° omnidirectional microphone, these cameras capture clear audio with noise suppression, enhancing overall production quality.

- **Multiple Video Outputs:** Support for HDMI and 3G-SDI outputs ensures compatibility with various video equipment and broadcasting setups.

### Key Features

- Screen Movement: Moves left and right by 20°, holds 24" monitors.
- Plastic Injection Table: Anti-scratch surface, dimensions 523mm x 417mm.
- Vertical Column: High-strength aluminum alloy with T-slot design for accessory expansion.
- Medical Silent Castors: High-strength anti-winding for smooth mobility.
- Heavy Block Support: Option to add up to 100kg for stability, typically 65kg block included.
